LEEA Approved

JCD TRAINING SERVICES

Associate Member

JCD Training the leader in Offshore Crane Operator and Offshore Crane Inspection training in South East Asia, over 250 participants have successfully completed our Offshore Crane Inspection training course (since 2011) giving participants a tremendous qualification in the oil and gas industry. Fully Approved LEEA Course conducted in accordance with (BS 7121 Part 11, API Spec 2 C, API RP 2 D 7th editions, PUWER 1998 & LOLER 1998).

Located in Vung Tau City, Vietnam, PVD Training are a world class training provider that consistently offers their clients premium and cost efficient solutions for internationally accredited training courses and services. PVD Training are the only training provider in Vietnam certified by OPITO & IWCF. With over 10 years experiences and constant development we are now providing internationally accredited training courses certified by OPITO, IWCF, STCW, NEBOSH, API and LEEA etc.

JCD Training Services have now joined forces with PVD Training to provide Offshore Crane Inspection & Offshore Crane Operator training courses (Five Day UK stage 2 and Three Day UK stage 3) that are fully accredited LEEA approved training courses. Training courses conducted at our excellent training establishment in Vung Tau City, Vietnam. A joint venture from two of South East Asia's top training providers that will yet again raise the standard of training to a new height.

Training venue: All theory and examinations will be conducted at training centre, practical exercises will be conducted onboard PVD 5 using Favco 7.5/10 K Offshore pedestal crane. Vessel (PVD5) is currently docked in bay at Vung Tau and is an excellent venue for UK stage 2 and UK stage 3 Offshore Crane Operator training.
